Markdown	✻✻✻
Obsidian.md	✻✻
Html, CSS	✻✻
Javascript	✻
React	🔎
Next-JS	🔎
GIT	🔎
Dutch	mother tongue
French	Advanced
Spanish	Advanced
English	Advanced

Hi, how are you?

Thank you for visiting my resumé!

I like to describe myself as a person with many interests, diverse skills and experiences. Although trained as an art-historian, I've always enjoyed tinkering on computers a bit more than the average history scholar. This interest eventually led me to my first professional IT job working as a Software Test Engineer at the VUB.

Whether it is an organisational challenge, building a website or writing an article; I always strive to deliver the best results possible. Specifically given my limited time, energy and resources. Coming to new challenges, I draw on my diverse past experiences and the valuable insights they have given me. Presented with a difficult problem I stay persistent in resolving the issue - individually or as actively teamworking. More often than not, I can trust on creativity for problemsolving. I love learning new skills and expand them to my knowledge base.

In my freetime i enjoy playing guitar, bouldering, travelling, taking care of my plants and doing amateur restoration projects.

Please take a look at my blogposts to further discover what I'm passionate about. ☺

greetings!

Holder of driving license B
